

TEAM AMERICA MENTOR VOLUNTEERS

List updated on February 25, 2008

The role of the "mentor" is to provide advice to a Team America team that needs local expertise in how to build and fly complex model rockets, or that needs advice on launch sites, rocketry vendors, or other general aspects of the hobby. Mentors may provide advice by phone, e-mail, or (at their discretion) in person. They are not expected to travel long distances to a launch.

Teams are not required to have mentors. It is not necessary for mentors to provide advice in person; any mentor may be contacted by any team using phone or e-mail, regardless of state.

In accordance with the rules of the Team America event, neither mentors nor any other adult may participate in the actual design or construction of a rocket used in the competition. They may (if they wish) serve as the official "NAR Senior Member Observer" of Team America qualification flights.

Many of the mentors (but not all) are members of local NAR clubs (sections) with launch facilities, and may be able to assist with locating a means or place for a Team America team to fly. If you need a mentor and none is listed below in your area, consult the list of NAR sections on the NAR web page <www.nar.org> and contact the nearest section; they will very likely be able to find someone to help.

Phone numbers are home numbers unless indicated by (W).

<u>NAME</u>	<u>LOCATION</u>	<u>PHONE</u>	<u>E-MAIL</u>
