

Virtual Open Meet/2020

S7 Scale Entry Form

Competitor Name	
Competitor Email Address	
National Team	
Prototype Name	
Prototype Serial Number or Round Number	
Scale	
Transparent Stabilizers? (Yes/No)	
Any parts not manufactured by contestant?	

Please provide a brief description of your model. You may discuss the approach taken, unique building techniques, challenges faced, or anything else you wish to highlight to the judges.

Your entry package should contain the following items:

- This completed entry form (a photograph of this completed form is acceptable)
- A data pack that complies with Rule 9.4 of the FAI Sporting Code for Space Models
- Five to ten photographs of the finished model. Two of these photographs should be full length, showing front and back views of the model. Additional photographs should focus on details and workmanship.

No workshop drawing is required, nor is a computer performance and stability simulation. It is not necessary to place a license number on your model.

Your completed entry package should be submitted to the following email address during the static submission window that extends from Friday, 21 August through Sunday, 6 September at 2359 CDT. Static judging will be completed on Sunday, 20 September, and will be posted to the Virtual World Cup website that evening.

Entries may be submitted via email or Dropbox. Submission email address: jduffy@mac.com
